

Gatemaster SYSTEMS

MORE than just point-of-sale software

> **Imagine** your Amusement park with Gatemaster...

Imagine scanning customer tickets with turnstiles and wireless handhelds. Many guests have Internet tickets or consignment passes from hotels. Some have season passes or coupons. Others simply present their hotel keys. All are automatically verified and tracked by Gatemaster with a quick scan.

Events and parties have never been so painless. Groups of all sizes are managed throughout your park - down to the individual. Watch your staff wirelessly check-off party guests as they go through a buffet line or other function. The most comprehensive party and reservation system ever built into a point-of-sale system is tracking and organizing every detail for you.

Accounting is so much easier now that even portable carts are wirelessly networked. Because all points-of-sale have live connections, Gatemaster's built in cashless system works throughout your park as easily as cash. With a range of miles, a register, turnstile or handheld device can be wirelessly added and operated anywhere in the park - as needed.

Back in your office, you can watch "real time" income totals and other vital information revise as registers throughout the park continually update. As you observe, you may decide to adjust a few prices or send an instant message to a register. Even if you are not in your office, Gatemaster will page you when inventory gets low or a cashier's drawer gets too full.

You relax in the knowledge that Gatemaster is monitoring your system via the Internet and, should the need arise, contacts you about issues before you are aware of them. At a moments notice, and at your request, Gatemaster can take over any point-of-sale station anywhere in the world to guide you or to make a repair. Help is always available.

Since Gatemaster was designed to integrate with many accounting and property management packages, as well as the Internet, all business procedures are more efficient.

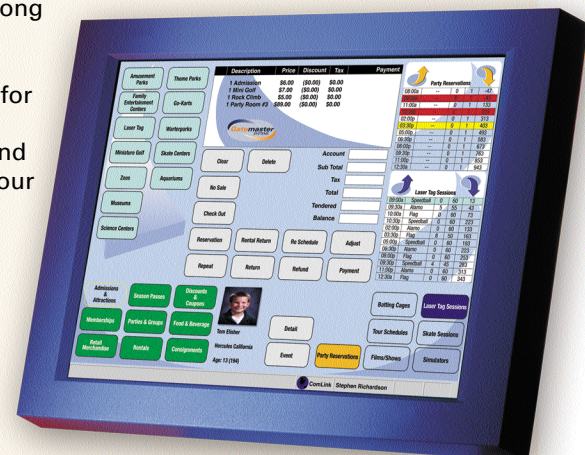

How did you ever live without Gatemaster? You know the time is right...

Ready to see how it works?

Choosing the right point of sale system for your facility is an important task. Relying solely on marketing kits and screen shots can never give you a true picture. Since you'll live with your decision on a daily basis for a long time - be sure it's the right one.

Let us show you exactly how Gatemaster can work for you. Call or sign up online today to schedule a free personal online demonstration. See our solutions and get your questions answered from the comfort of your office. Afterward, at your request, a price quote can quickly and easily be developed.

We welcome all of your staff to attend at the same time. You don't even need to have them all in one place to participate. All anyone needs to join is a computer with an internet connection and a phone.

For a **FREE** demonstration appointment call **510.799.9725** or visit www.gatemaster.com
